Terms and Definitions

All statistics pertain to events occurring in Saskatchewan.

Code numbers shown in brackets for type of accident are according to the 9th (1975) Revision of the International Classification of Diseases, Injuries and Causes of Death which was put into effect on January 1, 1979.

Hospitalized accident cases and patient days are shown for the period April 1, 1981 to March 31, 1982. Before the 1979-1980 report, these statistics were shown for the calendar year.

All rates are calculated according to the 1981 SHSP Covered Population (990,746).

Tables prepared by Policy Research and Management Services Branch, Saskatchewan Health. Inquiries about this publication should be addressed to Policy Research and Management Services Branch, Saskatchewan Health, Regina, Saskatchewan (Telephone: 565-3163).
